PERSONAL INFORMATION

SKILLS

UX Research
Wireframing
Prototyping
Adobe CC
HTML & CSS
Javascript
C#
C++

CORE VALUES

Creativity
Empathy
Sociality
Curiosity
Open mindedness

I see my goal as a designer to come up with creative solutions to today's problems. By closely observing people's behavior, I want to get to the core of these problems. I then apply my knowledge of new technologies to design a suitable solution.

I am a people-oriented, social person who is creative in thinking and acting.

Creative freedom is an important value for me together with an open mind. I preferably work in a multidisciplinary team with driven people who are open to innovative ideas.

I am familiar with, and know how to use, almost all Adobe programs. Web design (HTML and CSS) is something I know a lot about as well. I can also understand and code on an intermediate level in C++ and C#.

I prefer to spend my free time on reading or creative activities. From an early age I've liked drawing and I still do it to this day. I also like to paint every now and then when I have enough time. In order to stay fit I like to go jogging. I do this three times a week and a lot of the times I take my camera with me. Capturing the world around me is therefore something I love to do as well.

EDUCATION

- 2019-2020 Fontys University of Applied Sciences
Minor Embrace Technology, Entrepreneurship & Creativity
Graduated: TBD
